MRAD 202 – Patient Care 2

DOFFING Sequence

Ehrlich 10th edition Pg. 181-182

Below is the list of actions required when DOFFING PPE as per Ehrlich 10th edition.

*Note-There may be sequence differences. For **testing** purposes, follow the Ehrlich sequence.*

- Perform independently.
- Have another student observe to ensure the skill is completed in the correct order, usingthe correct technique.
- *Please start from the beginning if any sequential or technical oversites occur.

Doffing

STEP 1- Remove/untie or pull or tear gown (some gowns are linen vs. paper)

STEP 2- Remove gloves as gown sleeves are pulled off. Fold contaminated surface of gown inward.

STEP 3- Discard gown and gloves

STEP 4- Remove mask but do not touch contaminated face portion. Handle the ties/strings orrubber band only and discard.

STEP 5- Remove cap or hood

STEP 6- Perform hand hygiene
