ANPH 202: CAMRT Pathology List

Diseases and anomalies related to structure
Situs inversus/dextrocardia
Pneumothorax
Hemothorax
Pneumoperitoneum
Atelectasis

Central Nervous System
Alzheimer's disease
Cerebral hemorrhage – epidural, subdural, subarachnoid
Cerebrovascular accident (CVA)
Glioma
Head injuries – concussion, contusion, fractures
Herniated disc
Hydrocephaly
Meningitis
Metastasis
Parkinson's disease
Spina bifida
Transient ischemic attack (TIA)
Arteriovenous fistula / malformation

Cardiovascular System/Circulatory
Ascites
Aneurysm
Angina pectoralis
Aortic dissection
Aortic stenosis
Arrhythmias
Arteriosclerosis
Hemangioma
Varicose veins- hemorrhoids, esophageal
Portal hypertension
Atherosclerosis
Congestive heart failure (CHF)
Pulmonary edema
Coronary artery disease
Dextrocardia, septal defects
Embolus/pulmonary emboli
Hypertension
Myocardial infarction (MI)
Peripheral vascular disease (PVD)
Stenosis
Thrombus

Immune and Hematopoietic System
Anemia
Leukemia
Lymphoma: Hodgkin's and non-Hodgkin's

Endocrine/homeostatic diseases
Hyperpituitarism
Hypopituitarism
Achondroplasia
Acromegaly
Osteoporosis
Hyperthyroidism
Hypothyroidism/cretinism
Cushing’s syndrome
Hypoglycemia
Diabetes mellitus
