1. Provide instruction, mentor and supervise MRT students within the clinical site.

2. Facilitate student progress by assisting the student and preceptor(s) to assess clinical performance, develop goals and mentor achievement of goals.

3. Provide the student with formative and summative feedback in a timely manner so that improvements can be made in each course / rotation.

4. Evaluate clinical placement work of students based on MRT evaluation tools, competency-based objectives and professional standards, either directly or in liaison with preceptors.

5. Schedule student rotations and placement with clinical site liaisons/preceptors and site managers.

6. Conduct image critique sessions to ensure the students' continued skill in assessing images.

7. Provide remediation for students who demonstrate conduct not in alignment with standards of practice, code of ethics, regulations and legislation in place.

8. Ensure curriculum is up-to-date, review and revise as needed.

9. Assist the student in conflict resolution as required.

10. Facilitate preceptor workshops and be responsible for ongoing orientation and support of clinical preceptors.

11. Establish and maintain liaison with Medical Imaging faculty at all clinical placement sites.

12. Participate in MRT Program planning meetings, Faculty meetings, and Advisory Committee meetings as required.

13. Participate in the recruitment of students.

14. Function as a member of the Medical Imaging Instructional Team.

15. Participate in CMA Accreditation of the Edenbrook MRT Program.
