MRT Clinical Placement

How Do I Pass Clinical Placement?

PRCT 353

- Case Study Assignments 20 %
- Professionalism 20%
- Logbook Lines 15%
- Completed Body Part Competencies 20%
- Workflow Competency Evaluation 20%
- Orientation & preparation evaluation 5%

*All rubrics and assessment tools are posted on Edenbrook Brightspace

Professionalism (20%)

- Rubric is posted in Brightspace
- Completion of course components
  - Orientation Objectives forms
  - Daily Feedback forms
  - Rotation Summaries
  - Self-Evaluation Assignments (discussion topics)
  - Compliance with Attendance policy
- Professionalism Standards
  - Professional Appearance
  - Critical Thinking
  - Communication Skills
  - Engagement
  - Responsibility

Professionalism (20%)

Self-Evaluation Assignments

- Posted in Brightspace, as discussion board items, discussions tab
- To be completed when requested, at location
- There are different questions for reflection and comments. More information found in Brightspace.
- Availability of discussion for each topic will be posted in Brightspace
- Part of professionalism mark

Professionalism (20%)

Any questions about other forms?

- Daily Feedback forms
- Rotation Summaries
- Attendance policy

Professionalism (20%)

- Professionalism Standards are modeled at the workplace.
- How can you be successful?
  - Show initiative! Get involved in every case.
  - Communicate with your preceptors! Set goals, ask for help, speak up if you want to do something.
  - Be punctual, respectful, and have a positive attitude.
  - Don't make excuses when given feedback, or corrected. Ask for clarification when you need to.
  - Pay attention to details and learn from your mistakes.
  - Take pride in your work, and always strive for your best.
  - Have fun! Smile!

Logbook (15%)

- Consider this your x-ray “portfolio”
- Your best work will be approved for your logbook, at image critique sessions with your site liaison.
- 200 required cases (or “Image Critique Lines”)
  - All required lines must be completed by the end of PRCT 358
  - Logbook lines are cumulative. You work towards completing all lines throughout all semesters.
- Recorded in CompTracker, navigate your progress using CompTracker.

Logbook (15%)

Abbreviations:

- * IC – lines
  - These lines indicate that there is a competency associated with that exam. A minimum of 1 line must be approved before attempting the competency. (exception OR C-Arm)
- IC with a number
  - Minimum required views
  - IC - *knee4

Logbook (15%)

- Generic categories
  - Ensure you specify body part in procedure notes
  - Example lower extremity. Variety needed in PRCT 353. Maximum of 2 identical body parts will be used for grading
- Adaptive
  - Must adapt tube angle to compensate for patient condition/position
- Trauma Spine
  - Must include cross-table lateral
- BMD –A and BMD - P
  - Assist and perform
- (S)
  - Can be done in a simulated setting at the end of PRCT 358

Logbook (15%)

How do I get a line in my logbook?

- Step 1: Perform an exam, unassisted, under the supervision of a registered technologist.
- Step 2: Record the accession number in your Record of Performed Exams book. The supervising technologist will initial each case you perform independently.
- Step 3: Study for your next scheduled image critique session with your site liaison.
- Step 4: Present your cases at image critique sessions. If your case meets the criteria for logbook entry you will enter the number into CompTracker for your liaison to approve.

** Process may vary slightly from site to site. (Example – you may enter all cases into CompTracker before Image Critique session, OR you may only enter approved cases into CompTracker after Image critique session).

Logbook (15%)

Accession #	Site	LMP	Shield	Procedure	Date	Technical Comment	Tech Signature (Verify Performed)	Logbook Y/N	Initial

Ensure you are recording technical factors & Exposure Index (EI) number for each case to discuss at Critique

Logbook (15%)

- Submitting an IC line for approval:
  - ✓ Site
  - ✓ Accession # *be careful you enter it correctly!
  - ✓ Procedure notes ***must*** include technical factors & body part
  - ✓ Environment
    - Clinic
    - Hospital – All hospitals and urgent care sites
- Assign to site liaison who approved case during image critique.

Logbook (15%)

- Required lines
- 200 Required lines – assessed throughout the year.
  - PRCT 353: 70 lines = 10/10
  - Each semester's grading scale will be posted

Competencies (20%)

- A competency is an evaluation of a specific case from start to finish.
- 20 required competencies
- Competencies consist of two steps:
  - Step 1 - Perform the procedure under the supervision of a lead preceptor.
  - Step 2 - Complete a case review with your site liaison.

Competencies (20%)

How do I get Step 1 of a competency?

- Ensure a lead preceptor can evaluate you for the exam.
- Submit a COMP FORM STEP 1 on CompTracker to that lead preceptor.
- Perform the exam independently, with the skills consistent of an entry-level technologist.
- Preceptor can fill out the form on your handheld device, or on the website.
- Preceptor evaluates if Step 1 is complete or incomplete.

*Please submit a comp for *EVERY* attempt!

Competencies (20%)

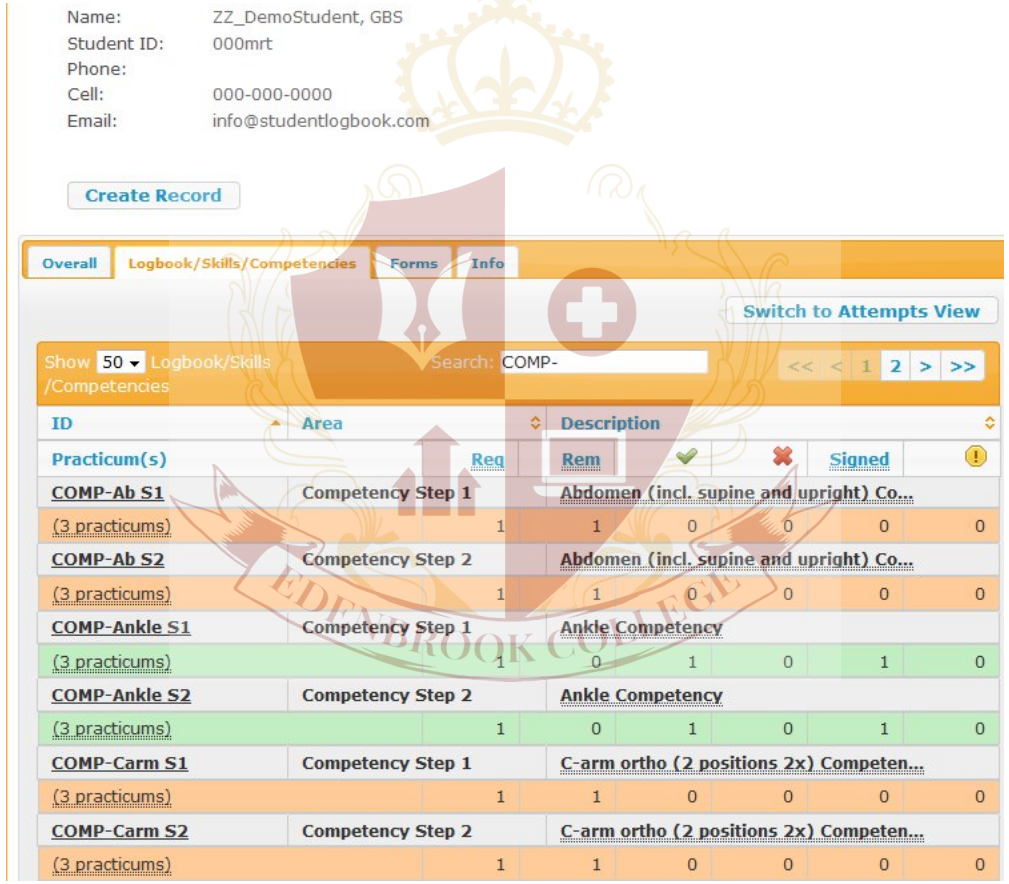

- Info tab in Comp Tracker includes detailed explanation of competency requirements. Please familiarize yourself with all categories before attempting step 1 of a competency.

Competencies (20%)

How do I get Step 2 of a competency?

- Step 2 (case review) to be completed within 5 business days of performing the case.
- Ensure your site liaison(s) is aware you need to review Step 2.
- Study and prepare for Step 2. The case review involves several theory questions including, but not limited to:
  - Image critique
  - Anatomy & positioning questions
  - Technical factor discussion
  - Patient Care questions
  - Pathology questions
- Submit a Step 2 competency in CompTracker to your site liaison who reviews the case with you.
- Site Liaison evaluates if Step 2 is complete or incomplete.

Competencies FAQ

- How are logbook lines and competencies different?
- What happens if I “fail” Step 1?
- What happens if I “fail” Step 2?
- How many times can I attempt a comp?

Competencies (20%)

- Required Comps
- 20 Required comps are assessed
  - PRCT 353: 10 comps = 10/10
  - Each semester's grading scale will be posted
  - Just like the logbook lines, comps are cumulative

Additional Logbook Lines

- 90 Additional lines
- Over and above the required # in any category
- 7 Additional comps
  - Can be completed at any time during clinical placement
  - Additional lines and competencies ONLY assessed for your PRCT 358 mark
  - Can be entered at any time -
  - **Your image critique time is best spent in PRCT 353 & 356 on required lines**
  - Revisit later in the semester

Workflow Competency Evaluation (20%)

- Goal – demonstrate consistent skills, high quality images, and good, safe habits.
- An Edenbrook instructor will complete your WFC (“workflow comp”) in a general x-ray rotation.
- Evaluation is based on 5 cases that you perform independently.
- Rubric is posted in Edenbrook Brightspace
- Rubric + Key Components
- Check Instructor Visit Schedule posted on Brightspace for your scheduled date.

Workflow Competency Evaluation (20%)

- How can you be successful in your WFC Evaluation?
  - Review the rubric in Edenbrook Brightspace, and strive to make those gradable components a part of your workflow.
  - Participate in every case you can during clinical placement – that experience contributes to your success!
  - Build a consistent workflow and good habits every day you're working in general x-ray.
  - Perform hand hygiene!

Comp Tracker in Clinical Placement

- We use CompTracker extensively in clinical placement
- Student-driven initiative. This means students are responsible for creating and submitting forms in CompTracker to accomplish tasks.
- 3 main purposes
  - Completion of forms
  - Image Critique Lines (IC Lines)
  - Competencies

CompTracker Forms

1. Use of Electronic Devices
- COMPLETE

2. Site Orientation
- Form to be submitted to the Site Liaison at the start of a new rotation

3. Rotation Summary may vary according to the site:
- Submitted to the Site Liaison at the end of each rotation
- Submitted to the Site Liaison at the midpoint and end of each rotation

4. Objectives Forms
- Orientation Objectives COMPLETE
- BMD and Mammo forms to be submitted to a preceptor
- Vascular/Interventional starts in PRCT 356. See Edenbrook for info.

CompTracker Forms

5. Daily Performance Feedback

- Submitted daily to a preceptor.
- Verification of attendance
- Daily goals
- Daily reflection
- Critical incidents

6. Absence Notification Forms

- Must be submitted prior to shift start
- Submitted to a clinical placement instructor
- Submitting evidence for excused absence to your clinical instructor within 5 business days for approval

*Every day in clinical placement must be accounted by one of these forms!

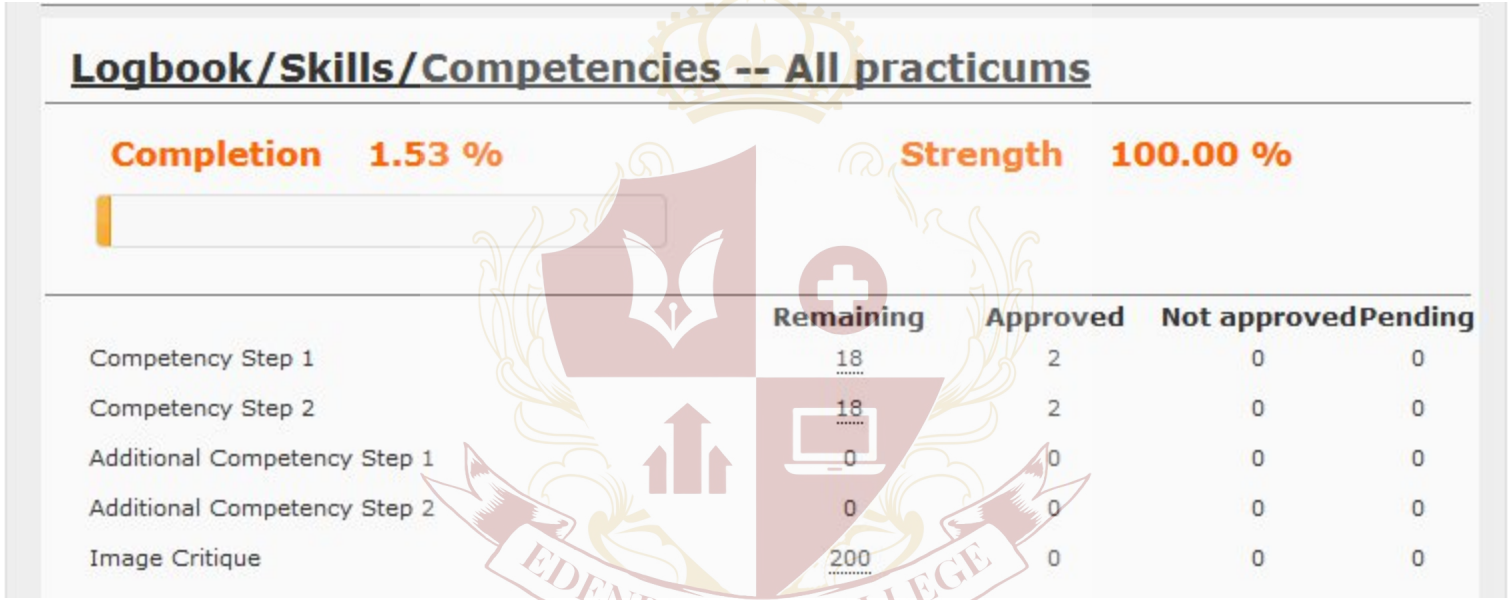

CompTracker Forms

7. **Instructor Visit Form** (Instructor generated)
- Instructors will offer formative and summative feedback during (or following) a site visit.
- Set goals/document progress/suggest strategies for success
- Evaluate your professionalism

8. **Critical Incident Form**
- Form created by site liaison when reported by preceptor
- Student self reflection piece
- Signed off by Edenbrook instructor

9. **Student Report Form**
- Created by site liaison
- Documents lack of progression, professionalism concerns, etc
- Delivered to student by site liaison and/or Edenbrook Instructor
- Student Support Plan (SSP)

CompTracker Reports

- Remaining Requirements Report
  - Quick overview of remaining IC lines and required competencies
  - Great tool for planning image critique sessions

- Logbook/Skill/Competency - by area, with student detail
  - Detailed count of number of IC lines and all remaining competencies
