CLINICAL Placements 2 and 3
GRADING SCHEME

PRCT 356 and 358 Evaluation Criteria – 10 Additional Logbook Lines/Competencies

For clinical placement PRCT 356, you must obtain 5 additional logbook lines. If you obtain more than 5, these count towards your clinical placement in PRCT 358. A combined total of **10 additional logbook lines** are required for both PRCT 356 and 358 courses.

Choose from the list of **performed exams** to gain additional logbook lines. There is a maximum of 2 cases per body part. For example, you can enter a maximum of 2 wrist cases in CompTracker.

Once you have reached the maximum number of your chosen case(s), you can continue with any other body part examination until you have completed all 10 additional logbook lines.
