PRCT 356 – Clinical Placement 2

Additional Lines

- This means adding over and above the **required** amount in any category.
- Additional Lines are divided into 2 categories. Level A and Level B. To find the list use Search bar in CompTracker to search for level B. All other lines are considered level A.
- Additional lines can be entered during any semester but will **ONLY** count towards your PRCT 358 grade.
- During PRCT 353 and 356 we STRONGLY encourage you to continue to focus on gaining remaining required lines. Use the Remaining Requirements report in CompTracker to prepare for your critique sessions.
- If you are doing your CT rotation this semester you can gain extra lines in CT after all requirements have been met and if time permits.
- The maximum number of additional lines that will be counted towards your PRCT 358 mark is 60 Level A exams and 30 Level B exams
- Keep in mind that critique time is limited and it is your responsibility to ensure that you have critiqued all required lines prior to attempting to gain additional lines.
