MRT Clinical Placement 1

MRT Program

How Do I Pass Clinical Placement?

PRCT 353

- Case Study Assignments (2) 10 %
- Professionalism 20%

<u>Assessments 70%</u>

Logbook Lines 25%

Workflow Competency Evaluation 30% (3 evaluations by Anderson Instructor)

Orientation & Preparation Evaluation (to include CompTracker reports) 15%

*All rubrics and assessment tools are posted on D2L Brightspace

Professionalism (20%)

- Rubric is posted in Brightspace
- Completion of course components
  - Orientation Objectives forms
  - Feedback forms
  - Rotation Summaries
  - Self-Evaluation Assignments (discussion topics)
  - Compliance with Attendance policy
- Professionalism Standards
  - Professional Appearance
  - Critical Thinking
  - Communication Skills
  - Engagement
  - Responsibility

Professionalism (20%)

Self-Evaluation Assignments

- Posted in Brightspace, as discussion board items, discussions tab
- To be completed when requested, at location
- There are different questions for reflection and comments. More information found in Brightspace.
- Availability of discussion for each topic will be posted in Brightspace
- Part of professionalism mark

Professionalism (20%)

Any questions about other forms?

- Feedback forms
- Rotation Summaries
- Attendance policy

Professionalism (20%)

- Professionalism Standards are modeled at the workplace.
- How can you be successful?
  - Show initiative! Get involved in every case.
  - Communicate with your preceptors! Set goals, ask for help, speak up if you want to do something.
  - Be punctual, respectful, and have a positive attitude.
  - Don't make excuses when given feedback or corrected. Ask for clarification when you need to.
  - Pay attention to details and learn from your mistakes.
  - Take pride in your work, and always strive for your best.
  - Have fun! Smile!

Logbook (25%)

- Consider this your x-ray "portfolio"
- Your best work will be approved for your logbook, at image critique sessions with your site liaison.
- Required cases or "Image Critique Lines, IC Lines
  - All required lines must be completed by the end of PRCT 358
  - Logbook lines are cumulative. You work towards completing all lines throughout all three clinical placements.
- Recorded in CompTracker, navigate your progress using CompTracker.

Logbook (25%)

Abbreviations:

- IC with a number
  - Minimum required views/projections
  - IC - *knee4

Logbook (25%)

- Adaptive
  - Must adapt tube angle to compensate for patient condition/position
- Trauma Spine
  - Must include cross-table lateral
- BMD - (A) and MAMMO - (A)
  - Assist
- Observe - (O)
- Simulation - (S)
  - Can be done in a simulated setting at the end of PRCT 358

Logbook (25%)

How do I get a line in my logbook?

- Step 1: Perform an exam, unassisted, under the supervision of a certified technologist.
- Step 2: Record the accession number in your Record of Performed Exams book. The supervising technologist will initial each case you perform independently.
- Step 3: Study for your next scheduled image critique session with your site liaison/clinical instructor.
- Step 4: Present your cases at image critique sessions. If your case meets the criteria for logbook entry, you will enter the number into CompTracker for your liaison/clinical instructor to approve.

** Process may vary slightly from site to site. (Example – you may enter all cases into CompTracker before Image Critique session, OR you may only enter approved cases into CompTracker after Image critique session).

Logbook - Record of Performed Exams

Accession #	Site	Date	Procedure	Technical Comment	LMP	Tech Signature (Verify Performed)	Logbook Y/N	Initial

Ensure you are **recording technical factors & Exposure Index (EI) number** for each case to discuss at Image Critique!

Logbook (25%)

- Submitting an IC line for approval:
  - ✓ Site
  - ✓ Accession # *be careful you enter it correctly!
  - ✓ Procedure notes ***must*** include technical factors & body part
  - ✓ Environment - hospital
- Assign to site liaison/clinical instructor who approved the case during image critique.

Logbook (25%)

- Required lines – assessed throughout the program.

Workflow Competency Evaluation (30%)

- Goal – demonstrate consistent skills, high quality images, and good, safe habits.
- An Anderson instructor will complete your WFC ("workflow comp") in a general x-ray rotation.
- Evaluation is based on 3 cases that you perform.
- Rubric is posted in D2L Brightspace.
- Rubric + Key Components.
- Check Instructor Visit Schedule posted on Brightspace for your scheduled date.

Workflow Competency Evaluation (30%)

- How can you be successful in your WFC Evaluation?
  - Review the rubric in D2L Brightspace and strive to make those gradable components a part of your workflow.
  - Participate in every case you can during clinical placement – that experience contributes to your success!
  - Build a consistent workflow and good habits every day you're working in general x-ray.
  - Perform hand hygiene!

Comp Tracker in Clinical Placement

- We use CompTracker extensively in clinical placement
- Student-driven initiative. This means students are responsible for creating and submitting forms in CompTracker to accomplish tasks.
- 2 main purposes
  - Completion of forms
  - Image Critique Lines (IC Lines)

CompTracker Forms

1. Use of Electronic Devices
- COMPLETE

2. Site Orientation
- Form to be submitted to the Site Liaison at the start of a new rotation

3. Rotation Summary may vary according to the site:
- Submitted to the Site Liaison at the end of each rotation or
- Submitted to the Site Liaison at the midpoint and end of each rotation

4. Objectives Forms
- Orientation Objectives COMPLETE
- BMD and Mammo forms to be submitted to a preceptor/clinical instructor
- Vascular/Interventional starts in PRCT 356. See D2L for info.

CompTracker Forms

5. Student Performance Feedback

- Submitted weekly to a preceptor/clinical instructor
- Verification of attendance
- Goals
- Reflection
- Critical incidents

6. Absence Notification Forms

- Must be submitted prior to shift start
- Submitted to a clinical placement instructor
- Submitting evidence for excused absence to your clinical instructor within 5 business days for approval

*Every day in clinical placement must be accounted by one of these forms!

CompTracker Forms

7. **Instructor Visit Form** (Instructor generated)

- Instructors will offer formative and summative feedback during (or following) a site visit
- Set goals/document progress/suggest strategies for success
- Evaluate your professionalism

8. **Critical Incident Form**

- Form created by site liaison when reported by preceptor/clinical instructor
- Student self-reflection piece
- Signed off by Anderson instructor

9. **Student Report Form**

- Created by site liaison
- Documents lack of progression, professionalism concerns, etc
- Delivered to student by site liaison/clinical instructor and/or Anderson Instructor
- Student Support Plan (SSP)

CompTracker Reports

- Remaining Requirements Report
  - Quick overview of remaining Image Critique (IC) lines
  - Great tool for planning image critique sessions

- Logbook - by area, with student detail
  - Detailed count of number of IC lines
