Requisition notes:

- Only perform the projections specified on the requisition
    - Examples:
        - "Scaphoid – Axial only"; only perform the 15° PA axial with ulnar deviation projection
        - "Hand – Oblique & Lateral only"; do not perform the PA hand projection
        - "Elbow – Oblique's only"; only perform the AP internal oblique and AP external oblique projections
- If the requisition specifies "Routine", you must perform all routine projections for the specified body part
